JACOB LUZA ROBBED.

While returning to his home last night Jacob Luza, living a mile southeast of town, was held up and robbed. The robbery took place on the road to his home about a quarter of a mile beyond the high school building. There were two of the robbers, but in the darkness Mr. Luza was unable to distinguish if they were negroes or white men. He lost about \$15 in cash, his pipe, tobacco and a few other small articles. His purse was found this morning by Clarence Vick near his home in the southern part of the city, but it contained no cash, only some receipted bills.

The officers were notified and are working on the case.

MAIN LINE CONNECTING SALONIKA AND SERBIA

Line Destroyed Was the One to Bring Allied Troops From Salonika to the Aid of Serbia. Serbians Are Making a Desperate Resistance and at One Place Crossed the Bulgarian Border—Russians Are Now Said to Have Plenty of Munitions Which Accounts for Their Recent Victories—Russians Say the Germans Are Running Short of Ammunition—Great Britain Is Considering Its Course Toward Serbia—Italy Will Take Part in Balkan Troubles—Germany Reports Successes. Many Killed and Wounded in Zeppelin Raid on London.

[By Associated Press.]
London, Oct. 14.—The Nish-Salonika railroad has been cut for a distance of five miles at a point believed to be fifty miles south of Nish, says an Athens dispatch. This trunk line is the one to be used by the allied troops in moving from Salonika to Serbia's assistance.

The Russian war statement says the Serbian resistance is "most severe." The Serbians took the initiative at one point, crossing the Bulgarian border, but were defeated.

The Russians now have sufficient munitions supplies, a dispatch says from the front, accounting for the recent Russian successes.

The Russians now claim the Germans are running short of ammunition.

The French War Office says there has been practically a violent engagement near Hill 140, in which both sides took part.

Great Britain is discussing the country's action in the Balkan conflict with opinion divided. It is believed generally, however, that Great Britain is bound to assist Serbia, if it can be done without detriment on the main front, where it is felt the war will be decided.

WILSON APPROVES ARMY INCREASE

The Plans Contemplate Expenditure of One Hundred and Eighty-four Million Dollars.

[By Associated Press.]
Washington, Oct. 14.—President Wilson today approved Secretary Garrison's plan for increasing the United States army. The plans call for an expenditure of \$184,000,000, which is an increase of approximately \$75,000,000. The plan as approved will be presented in its approved form to Congress with the full backing of the administration.

The President spent all the morning inspecting Secretary Garrison's estimates and plans. It is understood to propose an increase of from 30,000 to 50,000 men in the army and a large reserve will be created through inducing men to join the ranks by short term enlistment as well as encouraging the National Guard. Increasing the number of officers will be effected through using West Point Academy to its full capacity.
